

Principal Acoustic Consultant

(Ref: VEC.2020.PAC.003)

Verde Environmental Consultants Ltd is looking to recruit a **Principal Acoustic Consultant** in the **Republic of Ireland** (based at one of our four offices) who is committed to helping the growth of the business.

Verde Environmental Consultants is part of the Verde Environmental Group which is an Irish environmental company with over 60 employees and an established network of offices in Ireland. Verde has exciting and ambitious growth plans which are based on strong foundations of a quality brand developed by a talented team of environment, safety and risk specialists. Verde develops technical and business-focussed solutions that help to underpin the safe operation, environmental sustainability and ultimate success of our clients.

The successful candidate will demonstrate work experience in environmental health and safety consulting serving the industrial, pharmaceutical, construction and commercial sectors and will be expected to:

- Prepare technical reports for companies, environmental agencies and government bodies.
- Prepare project proposals and quotations.
- Manage project budget.
- Conduct environmental and occupational noise assessments.
- Interpret fieldwork data – statistical analysis and comparison with relevant guidelines and legislative standards.
- Mentor and train more junior staff in their duties.
- Liaise with clients, landowners and statutory consultees.
- Liaise with consultants and sub-contractors and various third-party contributors to projects.

It is expected that you have the following qualifications, experience and skills:

- Relevant degree in science or engineering.
- 5+ years' work experience in acoustics.
- Good project management experience.
- Excellent analytical and report writing skills.
- Strong communication and teamwork skills.
- A positive and enthusiastic attitude.
- Clean driver's Licence.

What would be desirable for you to have is:

- Related post-graduate qualification in acoustics.
- Knowledge and experience in environmental, occupational and building acoustics
- Experience in noise modelling and noise impact assessment
- Membership with a relevant professional body/institute (eg IOA , BOHS, SITRI)

Verde supports the professional development of its staff with appropriate training and further education where training gaps exist. Competitive remuneration package and benefits are provided.

Applications including a detailed CV and cover letter should be emailed to carolanne.hernon@verde.ie quoting the job description and reference number VEC.2020.PAC.003.
